

## The Healing-Session

takes place under the directorship of your Divine Self. Your questions can be regarding your health or rather be of a spiritual nature such as finding your true life's purpose.

In a pre-channeling I learn the most important issue which needs to be taken care of by you at this time. This can be one you are already aware of or highlight completely new aspects of your life.

**If health challenges** are bothering you I receive their spiritual origin and instructions for ways how to heal them

This cause might go back to another lifetime, your early childhood or derive from a present faulty behaviour which usually dovetail with each other.

Sustainingly healing can and is allowed to occur only after dissolving these blockages.

To achieve this I work with various methods on the quantum and information level in conjunction

with the Ascended Masters and Christed extraterrestrial healers from Plejades, Sirius and Arcturus as well as with healing methods according to Grigori Grabovoi and KRYON (channelled by Lee Carroll) in order to recalibrate our DNA.

**The healing session** takes place in a protected environment in a highly energized room. We sit facing each other at eye level so to speak. You ask your deepest questions. The sessions starts with a deep cleansing of your 5-body-system. It has already happened that a single session could liberate from nicotine addiction, depression or pain in the knees which had been lasting for years. Of course most healing processes take longer. Promises can never be given. For most important always is if you are really ready for your transformation or healing!

**You are of perfect radiant health and are enjoying life?** Wonderful - you do not need to be sick and full of problems in order to gain profit from this session. However it could possibly give you a completely new outlook (prospect) for your being on planet Earth. Anyway it will raise your vibration and do you good!

This session is possible also by phone!

It will be recorded on CD. Together with the pre-channeling and 3 days of telephone support I work with you at least 3 hours, 60 minutes or more in your physical presence, as agreed longer.
